

# Par-tic-i-pa-tion (N): taking part, being or becoming actively involved, sharing in

Are you registered as a patient with Hodnet Medical Centre?

Did you know that every GP practice in England is now required to have a Patient Participation Group (PPG) and that Hodnet Medical Centre's PPG is seeking more members?

The group has face to face meetings with practice staff three times a year and works on assigned tasks between meetings.

Ideally a wide age range of patients and a good spread of areas served by the practice will be represented.

We currently need more members, (particularly men, young people and anyone with a good grasp of IT skills) but we would love to hear from *anyone* with a desire to get involved and an interest in two-way communication about health matters.

**Every community needs participators –  
do get in touch!**

To find out more, please contact the PPG Secretary  
01952 540970 or email: [ppg@hodnet.org.uk](mailto:ppg@hodnet.org.uk)
